Seoul, Korea is the place I would like to talk about, it's one of the most exciting cities in Asia with its metropolitan population. I want to go there this winter holiday with some of my best friends from school.

When it comes to local culinary specialties, Sum gae tang is something I would like to try for a while, it's a traditional Korean soup dish with ingredients like Chicken broth, Ginseng, Red dates and rice being stuffed inside the chicken.... It's mild taste and the herbal seasonings make it a great cuisine for both the young and old in Korea and it's incredibly scrumptious and mouthwatering to eat.

Besides, I would love to visit the Lotte world, which is a popular stamping ground that a lot of youngsters go. It's basically a theme park that's quite similar to Disneyland with a lot of cool rides like the roller coasters and the merry go around, from what my friends told me, there are museums, sports facilities and a theater that offers a lot of excitement for the visitors.

Finally, I want to go to Seoul, as I have always been a big fan of the place, and the excitement it brings. It's a great place for work and study.... I can't wait to visit the place in the future!
